

NEXGEN® ADVANCED 50/40 PT + AA

PRODUCT DESCRIPTION

NexGen® Advanced 50/40 PT + AA is a low inclusion premix with four supplemental amino acids. These added amino acids, when balanced with soybean meal and corn, will result in efficient growth and feed efficiency in lean genetic lines of pigs.

FEATURES & BENEFITS

A Blend of Minerals, Trace Minerals, Vitamin Sources and Proper Amino Acid Levels
Ensures maximum performance.

Synthetic Amino Acids
Includes synthetic lysine, threonine, methionine and tryptophan for mixing convenience and efficient gains and feed efficiencies.

HiPhorius™
Using the latest generation of phytase reduces the amount of added inorganic phosphorus needed to meet the pigs' specific requirements, reducing feed cost and improving environmental impact and sustainability.

Formulation
Allows flexible usage for multiple growing and finishing diets. Other Kent swine products are recommended to make starter and breeding herd diets.

FEEDING DIRECTIONS

Feed below diets as the sole feed to swine.

With nursery pigs, from 25 to 40 pounds bodyweight, use NexGen Advanced 17-40 Mixer ZO (#2014). With gestation and lactation diets, use NexGen Advanced Natural Sow Premix 75 + Availa® Sow (#2117). For other detailed mixing and feeding directions, consult with your Kent Nutrition Group swine representative.

CAUTION: Follow label directions. The use of feeding higher levels of this premix containing selenium is not permitted.

NEXGEN® ADVANCED 50/40 PT + AA

For growing and finishing pigs.

GUARANTEED ANALYSIS

Crude Protein, min	25.0%
Lysine, min	14.5%
Calcium (Ca), min	16.0%
